

Bradley J. Olson is a registered patent attorney in the intellectual property group of the law firm of Dickstein Shapiro LLP in their Washington, DC offices. His practice includes all aspects of intellectual property law, with an emphasis on intellectual property licensing and enforcement. Mr. Olson has extensive experience in the patent field and advises clients on patentability, infringement, and validity issues, with a focus on the biotechnology and biomedical fields. Mr. Olson has prepared educational materials and lectured to various organizations and businesses in the United States and Europe on issues relating to recent developments in intellectual property law.

He has also published numerous articles concerning intellectual property law in law journals and national business periodicals. Mr. Olson is currently the President and Chairman-Elect of the Washington, DC chapter of the Swedish-American Chamber of Commerce. He has been an active member in various capacities in the Washington DC chapter for almost 15 years. Mr. Olson has worked with numerous Swedish-based companies assisting them in transitioning their businesses and networks into the United States of America.

Mr. Olson received his B.A. in Biology from Central Connecticut State University (1980); his Master of Science degree in Biology from the University of Connecticut (1985); his J.D. from the Franklin Pierce Law Center (1994); and a Master of Intellectual Property Law degree from the Franklin Pierce Law Center (1994).
